Comment:

25X1X a. The location of the airfield agrees with the information \_\_\_\_\_ in October 1947. The field is allegedly about 5,000 feet square and provided with two runways at right angles to each other. Contrary to this report \_\_\_\_\_ stated that

25X1X four new three-story hangars were located on the northwest edge of the field.

b. According to a press report of June 1949 a Polish officers' pilot school is presumably stationed there. No information has been received on the presence of a Soviet air force unit.
